Happy Thursday! I hope you had a great week. My goal is to provide value and insight into why the property has not sold outright. At the current list price, the rental income would not cover the loan proceeds, which limits investor interest. Additionally, the seller has not received offers from owner-occupants. Combined with a stagnant market and the difficulty many buyers face qualifying for a high monthly payment through traditional lenders, these factors have contributed to the property remaining unsold. I have great news ; After going to the drawing board to see how we can align further to assist meeting the seller's goals to liquidate this property we are able to pay the remaining portion in just 60 months, at the end of 4 years. If this works - amazing, if not - at least we made a great friend out of it!
