

Stack 10% (70% LTV)

LETTER OF INTENT TO PURCHASE I am presenting an offer for your listing at { {Property Address}} It is great aligning with you, I am looking forward to connecting the dots with you here shortly - After further precise due diligence with our DSCR lender, with an outright sale at the current list price, the rental income would not cover the loan proceeds, which limits investor interest. Additionally, the seller has not received an offer they prefer from owner-occupants. Combined with a stagnant market and the difficulty many buyers face qualifying for a high monthly payment through traditional lenders, these underlying factors have contributed to the property remaining unsold. We can use a unique strategy that unlocks a large portion of their equity at closing in a few short weeks and the remaining portion in just a short term payout. Approved Offer for {{Property Address}} Contingent on inspection: Purchase price of {{Cash Offer}} A down payment of 10% the purchase price (Funds to seller; This payment includes any listing agent commission) Earnest Money Deposit of \$500.00 submitted within 24 hours of authorized agreement - becomes non-refundable after inspections in 14 days (Allowing for proper notice to any residing tenants, along with agent and inspector availability and appraisal review) The remaining equity to be paid in full in just 24 months (No payments) Buyer pays buyer closing costs Buyer's choice for title Buyer is fully responsible for the property taxes, homeowners insurance, repairs, property management and tenants Close of escrow in just 30 days Since many properties are not currently cash flowing through a conventional approach, a member of our team will be reaching out to explore this creative option that may better align with the seller's goals.
